8 Species returned from Query: Taxonomy: Blattodea

*Periplaneta americana* (Linnaeus)
(Blattodea: Blattidae: Blattinae)
Reliability: High
Status: Exotic Species Establishment in Australia

*Periplaneta australasiae* (Fabricius)
(Blattodea: Blattidae: Blattinae)
Reliability: High
Status: Exotic Species Establishment in Australia

*Supella longipalpa* (Fabricius)
(Blattodea: Blattellidae)
Reliability: High
Status: Exotic Species Establishment in Australia

**common shining cockroach:** Live link: [http://www.padil.gov.au/pests-and-diseases/Pest/Main/136550](http://www.padil.gov.au/pests-and-diseases/Pest/Main/136550)

*Drymaplaneta communis* Tepper
(Blattodea: Blattidae: Polyzosteriinae: Methanini)
Reliability: High
Status: Native Australian Pest Species

**German cockroach:** Live link: [http://www.padil.gov.au/pests-and-diseases/Pest/Main/136543](http://www.padil.gov.au/pests-and-diseases/Pest/Main/136543)

*Blattella germanica* (Linnaeus)
(Blattodea: Blattellidae: Blattellinae)
Reliability: High
Status: Exotic Species Outbreak in Australia
